

Evina Katsou

Prof. and Course Director of the Water Engineering MSc at Brunel University

Dr. Evina Katsou is Professor and Course Director of the Water Engineering MSc at Brunel University. Evina leads the Water & Environmental Engineering group with 20 researchers. Authored 90 journal publications, 12 book chapters with over 100 presentations, invited talks and patent on biopolymers recovery. Evina leads the Transformation Tools group of the Cost Action on Circular Cities and co-leads the SMART-WATER group of the ICT4Water Cluster-EC. She is a member of the drafting team of the new ISO standards on Circular Economy. She leads 11 national and international projects focusing on the smartification of the water industry. Her research is focused on: (1) Sustainable resource recovery from wastewater and safe reuse; (2) Data analytics, knowledge discovery and process modelling; and (3) Circularity & sustainability measurement and assessment.
